Activities

- The 2022 Mennonite Health Assembly was held in March in Greenville, SC. The Assembly is an opportunity for MHS Member Ministries and Business Partners to learn together, connect with peers, worship and enjoy time together. This is always a wonderful educational time for the leadership from across the U.S. and Puerto Rico. The theme for the Assembly was *Together*. <https://www.mhsonline.org/health-assembly>
- MHS provides monthly webinars on a variety of topics. The 2022 themes include leadership, governance, and workforce development. These webinars are free and open to anyone that is interested [in the topic](#).
- MHS members continue to appreciate tools and resources to support their ministries. For more information on MHS member services, [please view our on-going member benefits video series](#).
- MHS Consulting continues to serve MHS members and nonmembers in the health and human services arena; primarily providing resources in governance, executive search, executive coaching, interim placement, strategic planning and positioning and operational, financial and market assessments.
- The MHS Board of Directors and MHS Staff continue to advance diversity, equity, justice and inclusion initiatives.

For Thanksgiving and Prayer

- Continued prayer for staffing retention and recruitment in the pandemic environment. Finding and keeping qualified and compassionate employees is a significant concern for MHS member organizations and the vulnerable populations they serve across the country.
- We are grateful for the financial gifts, gifts in kind, prayer and volunteer support to MHS member organizations throughout these challenging times.
